Education

Bachelor of Technology in Computer Science (Software Engineering)

Aug 2023 - May 2027 CGPA 8.92 / 4.0

Ajeenkya D Y Patil University

Pune, India

- Additional details or coursework

12th Grade (Science)

Jun 2022 - Feb 2023 % 70.8 / 4.0

Pravara Central Public School

Ahilyanagar, India

- Additional details or coursework

Projects

Carbon Credit Predictor App [🔗](#)

Date Range

Performed data preprocessing, including handling missing values, feature engineering, and normalization to improve model performance.

Developed a Carbon Credit Predictor App using Python to estimate carbon credit values based on environmental and industrial parameters.

Built an interactive Streamlit web application for real-time predictions with a simple and intuitive user interface.
